NIIT, completing 2026

## Certification

**CVPT, Certified Vulnerability and Penetration Tester**
2025

## Languages

**English**
Fluent, written and spoken

# Oyewole Nsikan Erinfolami

### Frontend and Mobile Developer

Frontend and full-stack JavaScript developer with over two years of experience building and shipping web and mobile apps in React, React Native and Node.js. Built the frontend of a live DeFi staking DApp on the TON blockchain and the student management system a tutoring business runs on. CVPT certified, with a security-first approach to the products I build.

## Experience

**Freelance Web and Mobile Developer** — Jan 2024 to Present
Self-employed, Lagos

- Build websites, web apps and mobile apps for clients, from scoping and pricing to launch and handoff.
- Delivered a multi-page ministry website with a conference registration system on Google Sheets and an admin dashboard.
- Built a premium gym brand site with five switchable themes and a community challenge feature.

**Frontend Developer (Contract)** — 2025 to Present
TonCrown, remote

- Built the frontend of a live DeFi staking DApp on TON with TonConnect wallets and USDT and TON staking.
- Shipped a 10-level upgrade system, VIP staking tiers, a 6-generation referral program and an admin dashboard.
- Run deployment and infrastructure: Vercel releases, Cloudflare DNS, subdomains and business email.

**Virtual Assistant** — 2026 to Present
English exam tutoring business, remote

- Manage daily operations for a tutor preparing international students for OET, IELTS and TOEFL.
- Built Elyte Class, a MERN student management system with admin and teacher roles and automated weekly reports.
- Handle scheduling and research tasks, delivering clear client-ready summaries.
